

One,
Two,
Three...

Enjoy Triple Safety with Nulife!

Safety in healthcare has three crucial dimensions: **quality**, **affordability** and **availability**.

For us, **quality** means not making compromises in the safety that our products deliver: they will be failure-proof.

For us, **affordability** means not making compromises in the pricing of our products: they will be within everyone's reach.

For us, **availability** means not making compromises in the delivery of our products: timeliness and accessibility are very important.

Nulife. Delivering triple safety. For five decades now.

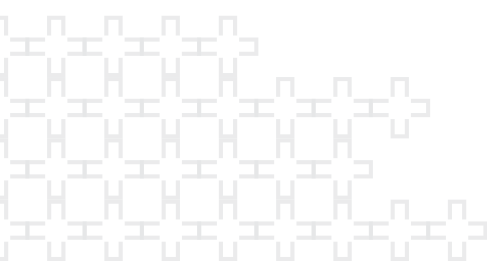

Nulife is brought to you by MRK Healthcare, a medical technology company with a **worldwide reputation for products** that offer superior protection, with high levels of comfort and performance.

MRK designs, develops, manufactures and markets a wide range of medical disposables for homes as well as hospitals. In **over 70 countries** around the world.

Headquartered in Mumbai, India, MRK has manufacturing facilities in six locations in Western India and employs over 700 people. **Over 100 million medical devices bearing the MRK mark are sold every year.**

MRK is an **ISO 9001:2008** certified company with **CE certification** for its product range.

All in all, MRK is a partner you can trust.

Products at a glance

Gloves Range

- Latex Examination Gloves
- Latex-free Examination Gloves
- Latex Surgical Gloves
- Ultra Nulife Beadless Gloves
- Elbow Length Gynaecology Procedure Gloves
- Super Protection Double Pair Gloves

Available sizes	Small / Medium / Large
Packaging	100 pcs of Non-sterile Gloves in a dispenser, 10/20 dispensers per shipper carton

Latex-free Examination Gloves

Vinyl & Nitrile variety

Special features

- Latex-free, odour-free and powder-free
- Can withstand IPA washing (ISO Propyl Alcohol).
- Can be used in food industry as these are non-reactive with fatty acids (tested as per US FDA)
- Ideal for doctors with latex allergy

Available sizes	Small / Medium / Large
Packaging	Vinyl Gloves: 100 pcs of Non-sterile Gloves in a dispenser, 10/20 dispensers per shipper carton
	Nitrile Gloves: 200 pcs in a dispenser, 10 dispensers per shipper carton

Latex Surgical Gloves

Powdered & Powder-free

Special features

- Improved modulus for better comfort
- Low powder content that minimizes skin irritation
- Thicker gloves for enhanced safety
- Comfortable 'K'

Importance of 'K' in gloves

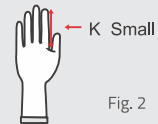

What is 'K'?

The distance between tip of index finger to thumb crotch as shown in Fig. 1

When 'K' is small

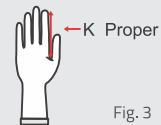

More stress on user's hand

Glove tries to pull back thumb; so greater force is required for thumb movement. Hence, user experiences stress.

When 'K' is proper

Comfortable movement of user's hand, resulting in negligible stress on hands.

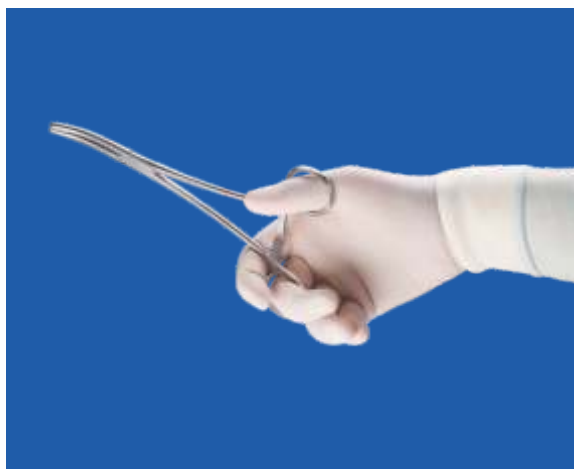

Comfortable movement of hand; hence no strain.

Available sizes	5.5 to 8.5
Packaging	Sterile Gloves: 50 pairs in a box, 10 boxes per shipper carton (available in tear open & peel open pack)
	Non-sterile Gloves: 25 pairs in a box, 24 boxes per shipper carton

Ultra Nulife Beadless Gloves

Powdered & Powder-free

Special features

- Beadless cuff for improved gown grip and to prevent roll down
- Micro rough surface for better instrument grip during operation
- Reinforced cuff area to prevent tearing while donning gloves
- Exceptional dexterity, enhanced comfort and flexibility
- Optimum moisture content: cuts down risk of electro-surgery shocks
- Packed in special Kangaroo wrap
- Packed in peel-open pouch for easy peelability

Available sizes | 5.5 to 8.5

Packaging | 40 pairs in a box, 6 boxes per shipper carton

Specially designed for surgeons and orthopaedic specialists

Elbow Length Gynaecology Procedure Gloves

Powdered & Powder-free

Special features

- Elbow length gloves help doctors avoid direct contact with blood and mucous membranes that occur in 25% of vaginal deliveries and 35% of caesarean sections
- These gloves also protect doctors from significant blood and amniotic fluid contamination
- We suggest the use of powder-free gloves as the powder on gloves can enter patients' bodies during surgery, which may trigger an inflammatory response by the immune system, leading to the formation of fibrous bands and post-operative adhesions.
- Useful in pharmaceutical factories in plant & packaging

Available sizes	Small, medium & large (available in 14", 16", 18" & 20" length)
-----------------	--

Packaging	50 pairs in a box, 8 boxes per shipper carton
-----------	---

Specially designed for Gynaecologists

*Non-sterile elbow length gloves also available

Super Protection Double Pair Gloves

Powder-free

Special features

- Nulife Double Pair Gloves are specially designed to provide 2 complete sets of surgical gloves in one convenient package
- The inner glove is one size larger than the outer glove for the user's comfort
- The colour of the inner gloves is darker than that of the outer gloves. This difference in colour helps the user notice any perforation in the outer glove immediately, as the seeping liquid causes a slight change in the colour of the inner glove.

Available sizes	5.5 to 8
-----------------	----------

Packaging	20 pairs in a box, 6 boxes per shipper carton
-----------	---

Specially designed for surgeons and doctors handling HIV-positive patients

Orthopaedic Gloves

Powder-free

Special features

- Provides extra protection during complicated or rigorous orthopaedic surgery, particularly against bone fragments and other surgical debris
- Unique brown colour minimizes eyestrain in the operation theatre, providing a good contrast to light-coloured organs and improving visibility
- Specially designed to retain tactile sensitivity without compromising on strength by giving the gloves a 'high strength to thickness' ratio
- Anatomical design to reduce fatigue during extended surgery

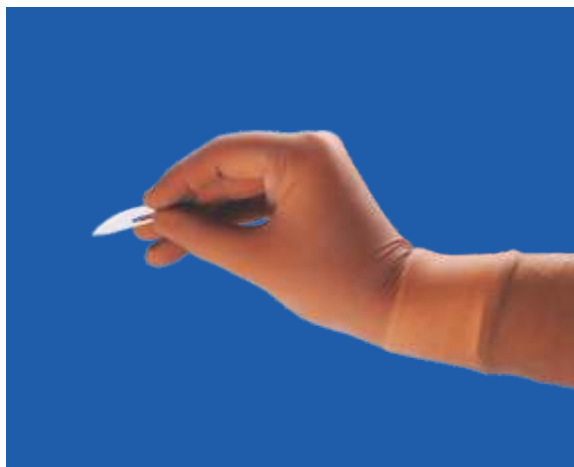

Available sizes | 5.5 to 8.5

Packaging | 40 pairs in a box, 6 boxes per shipper carton

Specially designed for orthopaedic specialists

Microsurgery Gloves

Powder-free

Special features

- Thinner than normal surgical gloves
- Superior sensitivity in the fingertips during micro and ophthalmic surgeries
- Optimum strength to ensure adequate barrier protection
- Provide natural superior "feel" and safety
- Unique light brown colour which minimizes eye strain in the operation theatre

Available sizes | 5.5 to 8.5

Packaging | 40 pairs in a box, 6 boxes per shipper carton

Specially designed for eye surgeons, neurosurgeons and cardiac surgeons

Foley Balloon Catheter

Silicone Elastomer Coated

Features

- Blockage-free balloon
- Elliptical side eye
- Maximum fluid flow
- Trauma-free catheterization
- Colour-coded valve sleeve

Available sizes	2 way (3-5cc) 8-10 FG (Paediatric)
	2 way (5-15cc/30-50cc) 12-24 FG
	3 way (30-50cc) 16-24 FG
