# ENVIRONMENTAL RESPONSIBILITY

**We are more than a company that designs innovation and products that protect lives. RACLAC® bases its business practices on socio-environmental policies to protect and embrace our planet: its future and the future of future of the generations to come.**

**Techniques for using and saving Natural Resources**

**Energetic Efficiency**

**Environmental Awareness: Reduce, Reuse, Recycle**

**As a result of this vision of sustainability comes the innovative packaging of Rubbergold® Hugging the Planet, 100% Eco Friendly. Inspired by the tones of nature, it absorbs the green of the bamboo and blends in with it.**

  - **More Gloves per dispenser pack**
  - **Less need for refills**
  - **Adjustable to any space**

**"In nature nothing is created, nothing is lost, everything changes."**

*Antoine-Laurent de Lavoisier*

In the context of the production of Rubbergold® Hugging The Planet Gloves, the Glove in Box is born from RACLAC® policies of social and environmental sustainability in the reuse of resources

Due to their level of quality control, there is the possibility of the presence of defects, so these gloves are directed to sectors of non-medical use and without risk of cross contamination.

Also packaged in an Eco Friendly packaging, it comes in a terracotta colour inspired by the landscapes of the warm cliffs of southern Portugal.

*One package, a thousand gloves, multiple contexts of use.*
